Subject Index

Academic nursing centers
  education of nurse practitioners in nurse-managed, 354
  eleven years of primary health care delivery in, 279–288
Academic nursing practice
  evaluation of Penn Macy Initiative to advance, 8–16
Academic triad model
  faculty practice, facilitation of clinical integrations into, 269–278
  see also Tripartite mission
Accreditation
  standards of holistic nursing practice as guidelines for quality undergraduate curricula, 382
Advanced practice nurses (APNs)
  blended educator/clinician role, Web-based nurse educator certificate program for, 347
  characteristics of patient visits to nurse practitioners in hospital outpatient departments, 211–215
  educating for practice reality, 262–268
  education of nurse practitioners in academic nurse-managed centers, student perspective, 354
  in community/public health nursing, setting a new course for, 189–196
Affirmative action
  promoting student diversity in graduate nursing education, 134–141
Agency for Healthcare Research and Quality
  national health care quality initiatives, 59–60
Alternative therapies
  faculty/student beliefs and attitudes, implications for nursing education, 387
Altruistic service
  in nursing research, from peer reviewers and advisors, 58
Ambulatory care
  characteristics of patient visits to nurse practitioners in hospital outpatient departments, 211–215
Art, visual
  in empathy teaching strategy in nursing education, 49–54
Associate degree programs
  licensure, distinguishing between nurses with different academic preparation, 121–122, 123–125
Attitudes
  impact of palliative care educational component on student attitudes toward care of the dying, 305–312
Attrition, student
  in nursing programs, epidemiologic approach to, 230–236
Authenticity
  reflection and, in international education for Swedish and American nursing students, 164–172
Autonomy
  current factors contributing to professionalism in nursing, 251–261
  in communitarian perspective on ethical reasoning in nursing research, 295–304

Baccalaureate degree programs
  academic-service partnership for, 216–222
  concept mapping, influence on students' critical thinking, 339
  effect of student participation in study abroad, 237–242
  informal peer group experiences and students' professional socialization, 38–48
  licensure, distinguishing between nurses with different academic preparation, 121–122, 123–125
  standards of holistic nursing practice as guidelines for quality undergraduate curricula, 382
  student project integrating teaching, practice, and research, 17–21
  written *vs.* oral examinations in a medical-surgical nursing course, 142–148
Beneficence
  in communitarian perspective on ethical reasoning in nursing research, 295–304

Caring
  informal peer group experiences and baccalaureate nursing students', 38–48
Certification, specialty
  current factors contributing to professionalism in nursing, 251–261
Cesarean birth
  student project on, integrating teaching, practice, and research, 17–21
CINAHL database
  information literacy as foundation for evidence-based practice in graduate degree programs, 320–328
Clinical nurse specialists
  educating advanced practice nurses for practice reality, 262–268
  see also Advanced practice nurses
Clinical practice
  academic-service partnership for baccalaureate nursing program, 216–222
  characteristics of patient visits to nurse practitioners in hospital outpatient departments, 211–215
  patient preferences for discharge planning, 204–210
  roles of staff nurses and clinical faculty in nursing student learning, 76–84
  student project integrating teaching, practice, and research, 17–21
Collaboration
  global, in nursing research, via minority international research training program, 22–31

in recruitment of vulnerable populations for research, ethical issues in, 106–112
promoting student diversity in graduate nursing education, 134–141
Commission on Collegiate Nursing Education
exploring and developing a college's community of interest, 364
Commodity
nursing as a commodity, 57
Communitarian perspective
on ethical reasoning in nursing research, 295–304
Community
sense of, in schools of nursing, 179
Community health clinic
nurse-managed, program logic model for evaluation of processes and outcomes, 197–203
Community nursing centers
eleven years of primary health care delivery in, 279–288
Community of interest
exploring and developing a college's, 364
Community-based nursing
academic-service partnership for baccalaureate nursing program, 216–222
Community/public health nursing
setting a new course for advanced practice in, 189–196
Competence
evaluation of portfolios as a quality credential for nurses in genetics, 85–90
Competency
in community/public health advanced practice nursing, 189–196
Complementary therapies
faculty/student beliefs and attitudes, implications for nursing education, 387
Computerized literature searches
information literacy as foundation for evidence-based practice in graduate degree programs, 320–328
Concept mapping
and critical thinking in baccalaureate nursing students, 339
Credentialing
evaluation of portfolios as a quality credential for nurses in genetics, 85–90
Critical care nursing
analysis of end-of-life content in textbooks on, 372
Critical thinking
and concept mapping in baccalaureate nursing students, 339
Cultural competence
intensive clinical experience in mental health nursing in a rural area, 126–133
Cultural diversity
ethical role modeling for international scholarship and research in nursing and midwifery, 115–116
honoring diversity, first do no harm, 331
success and failure in global nursing, 3–4
Curriculum
educating advanced practice nurses for practice reality, 262–268
impact of palliative care educational component on student attitudes toward care of the dying, 305–312
in community/public health advanced practice nursing, 189–196
information literacy as foundation for evidence-based practice in graduate degree programs, 320–328
standards of holistic nursing practice as guidelines for quality undergraduate, 382
Cyclic thinking
and renewal *(Editorial)*, 1–2

Database management systems
tracking nursing practice in a community nursing center, 279–288
Death and dying
impact of palliative care educational component on student attitudes toward care of the dying, 305–312
Discharge planning
patient preferences for, transition of, 204–210
Discourse, disciplinary
emergence of, for nursing in Ireland, 91–98
Distance education
predictors of student satisfaction with, in graduate nursing courses, 149–163
see also Instructional technology
Diversity, student
promotion of, in graduate nursing education, 131–141
Doctor of Nursing Science (DNSc) degree
compared with PhD in nursing, 223–229
Doctoral degree programs
process of Rush University's decision to retain DNSc degree, 223–229

Education, nursing
academic-service partnership for, 216–222
choosing between DNSc and PhD degrees, 223–229
complementary therapies, faculty/student beliefs and attitudes, implications for, 387
decline in federal government funding for Nurse Reinvestment Act, 182–183
educating advanced practice nurses for practice reality, 262–268
effect of nurse preceptor leadership style on nursing practicum, 32–27
faculty practice, facilitation of clinical integrations into academic triad model, 269–278
informal peer group experiences and students' professional socialization, 38–48
information literacy as foundation for evidence-based practice in graduate degree programs, 320–328
master's degree programs to facilitate translating research to practice, 119–120
on-line seminars, student perspective of effectiveness of, 313–319
student project integrating teaching, practice, and research, 17–21
support for novice educators, 5
visual arts in empathy teaching strategy, 49–54

Web-based nurse educator certificate program to prepare advanced practice nurses for blended educator/clinician role, 347
Education, patient
patient preferences for discharge planning, 204–210
Educators, nurse
Web-based nurse educator certificate program to prepare advanced practice nurses for blended role as, 347
see also Faculty issues
Emotional well-being
informal peer group experiences and baccalaureate nursing students', 38–48
Empathy
teaching strategy for, using visual arts in nursing education, 49–54
End of life care
analysis of content on, in critical care nursing textbooks, 372
impact of palliative care educational component on student attitudes toward care of the dying, 305–312
Entry level, into professional practice
licensure, distinguishing between nurses with different academic preparation, 121–122, 123–125
Errors, in care delivery
faculty role in assuring patient safety, 333
Ethical issues
best ethical and spiritual values, 117–118
communitarian perspective on ethical reasoning in nursing research, 295–304
ethical role modeling for international scholarship and research in nursing and midwifery, 115–116
recruitment of vulnerable populations for research, 106–112
the right way to live, 6–7
Tibetan perspective on ethics, spirituality, and healing, 245–246
Ethnic disparity
alleviating nursing shortage by increasing recruitment of minorities in nursing, 289–294
Evidence-based practice
evaluation of Penn Macy Initiative to advance academic nursing practice, 8–16
information literacy as foundation for, in graduate nursing education, 320–328
nature of evidence in, 184–188
Examinations
written *vs.* oral, in a medical-surgical nursing course, 142–148
Exchange programs, international
for faculty, Finnish nursing students' perceptions of a visiting professor, 99–105

Faculty issues
beliefs and attitudes about complementary therapies, implications for education, 387
blended educator/clinician role of advanced practice nurses, Web-based nurse educator certificate program for, 347
international faculty exchange, Finnish nursing students' perceptions of a visiting professor in, 99–105
peer mentoring for tenure-track faculty, 335
project integrating teaching, practice, and research, benefits of for, 17–21
role in assuring patient safety, 333
writing for publication, reasons for, 177–178 *(Editorial)*
Faculty practice
evaluation of Penn Macy Initiative to advance academic nursing practice, 8–16
facilitation of clinical integrations into academic triad model, 269–278
roles of staff nurses and clinical faculty in nursing student learning, 76–84
Federal government
investing in the Nurse Reinvestment Act, 182–183
Finland
Finnish nursing students' perceptions of a visiting professor, 99–105
Fulbright program
international faculty exchange, Finnish nursing students' perceptions of a visiting professor in, 99–105
Funded research mentoring
experience in maternal-infant interaction research, 66–75

Generation Y
motivation of to enter nursing, 173–175 *(Personal Essay)*
Genetics
evaluation of portfolios as a quality credential for nurses in, 85–90
Global health
international research training program for minority nursing students, 22–31
Graduate degree programs
information literacy as foundation for evidence-based practice in, 320–328
predictors of student satisfaction with distance education in graduate nursing courses, 149–163
promoting student diversity in, 134–141
see also Master's degree programs *and* Doctoral degree programs

Healing
Tibetan perspective on ethics, spirituality, and, 245–246
Health care
national health care quality initiatives, 59–60
Health care providers
collaboration with, in recruitment of vulnerable populations for research, 106–112
Holistic nursing practice
standards of, as guidelines for quality undergraduate curricula, 382
Hospitals
characteristics of patient visits to nurse practitioners in outpatient departments, 211–215

Information literacy
as foundation for evidence-based practice in graduate degree programs, 320–328
Institute of Medicine
national health care quality initiatives, 59–60
Instructional technology
in international education, teaching reflection to Swedish and American nursing students via, 164–172
on-line seminar, student perspective of effectiveness of, 313–319
predictors of student satisfaction with distance education, in graduate nursing courses, 149–163
Web-based nurse educator certificate program to prepare advanced practice nurses for blended educator/clinician role, 347
Interactive video teleconferencing
in international education, teaching reflection to Swedish and American nursing students via, 164–172
predictors of student satisfaction with, in graduate nursing courses, 149–163
International nursing
emergence of a disciplinary discourse for nursing in Ireland, 91–98
International nursing education
effect of student participation in study abroad, 237–242
ethical role modeling for international scholarship and research in nursing and midwifery, 115–116
Finnish nursing students' perceptions of a visiting professor, 99–105
international research training program for minority nursing students, 22–31
reflection and transition to authenticity in Swedish and American nursing students, 164–172
Ireland
emergence of a disciplinary discourse for nursing in, 91–98

Journal of Professional Nursing
adventures of being an Editor *(Editorial)*, 55–56
invitation to write to Editor *(Editorial)*, 243–244
transition and continuity, with new Editor, 113–114 *(Editorial)*
Justice
in communitarian perspective on ethical reasoning in nursing research, 295–304

KO1 Award
mentored experience in maternal-infant interaction research, 66–75

Leadership style
of nurse preceptors, and the nursing practicum, 32–27
Leapfrog Group
national health care quality initiatives, 59–60
Legal issues
Licensure
distinguishing between nurses with different academic preparation, 121–122, 123–125 *(Point–Counterpoint column)*

Master's degree programs
educating advanced practice nurses for practice reality, 262–268
information literacy as foundation for evidence-based practice in graduate degree programs, 320–328
intensive clinical experience in mental health nursing in a rural area, 126–133
new focus on evaluation of scientific evidence, 119–120
translation skills in, to narrow gap between research and practice, 119–120
Maternal-infant interaction research
mentored experience (KO1) in, 66–75
Medical errors
faculty role in assuring patient safety, 333
Medline
information literacy as foundation for evidence-based practice in graduate degree programs, 320–328
Mental health nursing
intensive clinical experience in rural area, 126–133
Mentored Research Scientist Development Award (KO1)
mentored experience in maternal-infant interaction research, 66–75
Mentoring
collaboration program to recruit minority students in graduate nursing education, 131–141
in context of Mentored Research Scientist Development Award, 66–75
initiation of funded mentoring relationship, 71
productivity within the funded mentoring relationship, 73–74
sustaining the funded mentoring relationship, 71–73
peer, for tenure-track faculty, 335
Midwifery
ethical role modeling for international scholarship and research in nursing and, 115–116
Minority International Research Training Program
for global collaboration in nursing research, 22–31
Minority nursing students
alleviating nursing shortage by increasing recruitment of, 289–294
international research training program for, 22–31
Motivation
of the new generation to enter nursing, 173–175 *(Personal Essay)*

National Healthcare Quality Report
shaping or critiquing, 59–60
National Institute for Nursing Research (NINR)
nursing and opportunities of a lifetime *(Keynote Address)*, 61–65
National Institutes of Health
Mentored Research Scientist Development Award (KO1), 66–75
National Quality Forum, 247–248
NCLEX-RN
using licensure to distinguish between nurses with different academic preparation, 121–122, 123–125 *(Point–Counterpoint column)*
Nurse practitioners
characteristics of patient visits to, in hospital outpatient departments, 211–215

educating advanced practice nurses for practice reality, 262–268
